Alcidion awarded preferred provider for Medications Management

Adelaide, South Australia – Alcidion Group Ltd (ASX: ALC) today announces it has been selected, in the UK, as the preferred provider for Dartford and Gravesham NHS Trust's Electronic Prescription Medications Administration System as a result of a competitive tender process.

Upon final contract, Alcidion will deploy Better by Marand's OPENeP platform, an electronic medication management system that is designed to prevent adverse medication related events. In April 2019, Alcidion was appointed as a reseller partner by Better by Marand for the UK, Australia and New Zealand.

Alcidion Managing Director Kate Quirke said, "We are delighted to extend our existing relationship with the Dartford and Gravesham NHS Trust. This selection of Alcidion demonstrates the breadth of our capabilities and our value as the Trust's strategic partner to support its goal of being *Paperless at the Point of Care by 2020*.

"This is the first major tender for which Alcidion has been selected to supply the OPENeP platform. This demonstrates the power of our expanded portfolio of complementary products and solutions that sit alongside Miya and Patientrack, enabling us to offer a truly best-of-breed integrated solution that covers a wide range of clinical needs including next generation medications management."

This is subject to approval of the business case by the Trust Board and successful negotiation and final approval of a contract, which is expected in late 2019. It should be noted that Alcidion does not normally announce the award of preferred provider status, however this information is considered material and likely to be shared beyond the Trust and Alcidion and hence has been released ahead of a final contract being signed.

ENDS
